

Supplementary Tab. 1. Composition of the two feed rations during rearing (feed conversion after two weeks of rearing) and fattening (feed conversion at an average weight of 80 kg).

Item	rearing		fattening	
	ration 1	ration 2	ration 1	ration 2
Ingredients				
Barley (%)	18	32	17	59
Wheat (%)	20	40	59	22
Squeezed oats (%)	20	-	-	-
Maize flour (%)	5	-	-	-
Soya extraction meal (%)	-	16	19	15
Feed oil (%)	-	2	-	-
Rapeseed oil (%)	2.5	-	2	1.5
Mineral feed* (%)	4	5	3	2.5
Feed supplements (%)	30.5"	5	-	-
Nutrient component				
ME (MJ/kg)	14.1	13.9	14.0	13.3
Crude protein (g/kg)	161.0	177.7	175.7	157.5
Crude fibre (g/kg)	44.0	40.7	37.0	49.0
Crude fat (g/kg)	84.0	43.6	41.8	39.4

*8.0 % lysine, 2.0 % methionine, 2.0 % threonine

"protein supplement, energy supplement, fiber mix, lignocellulose, zeolite, acids
